Experience

PT. Via Digital Indonesia

Jan 2026 – Jun 2026

Project Manager & Business Development

- Managed the post-launch operations of the stable "Via Tiket" platform, overseeing a 3-person team, evaluating performance, and delivering progress reports to top management.
- Acted as a liaison between Event Organizers (EO) and the programming team, gathering client feedback to delegate technical fixes and system improvements.
- Spearheaded Business Development initiatives by managing 1 subordinate to pitch the agency's technology startup portfolio, primarily the "Via Tiket" platform and "Payvia" POS system to drive

B2B sales and partnerships.

- Directed the execution of high-profile client websites including Korem Antasari, Prima Banjarmasin TV, and Hidup Tanpa Hutang.
- Spearheaded social media operations for the "Hidup Tanpa Hutang" brand, successfully growing its Facebook following to 100K users.
- Acted as the lead on-screen promotional talent for the agency's expanding digital content series to drive brand engagement.

PT. Via Digital Indonesia

Jul 2025 – Dec 2025

Startup Intern

- Spearheaded the initial IT software development of the "Via Tiket" e-ticketing platform startup project.
- Focused on building robust back-end logic using the Laravel framework and seamlessly integrating it with front-end interfaces using Tailwind CSS.
- Revamped the user interface (UI) and developed high-converting landing pages for the "Viawebhosting" portfolio.
- Managed digital content creation, developed editorial plans, and initiated the on-screen promotional talent role for the agency's internal digital campaigns

Freelance Mobile Developer

Dec 2024

- Independently developed a mobile application using Kotlin.
- Designed the application architecture and implemented both front-end and back-end features.
- Handled database management.

Mobile Developer Learning Path — Bangkit Academy led by Google, GoTo, & Traveloka

Sep 2024 – Dec 2024

- Completed curated modules in Android development using Kotlin, software engineering fundamentals, Git & GitHub, and app deployment.
- Participated in industry-standard training including soft skills, English communication, and product-based capstone project development.
- Collaborated in a team project to build a tech solution for real-world problems in Indonesian society.

Freelance Web Developer

Aug 2022 – Sep 2022

- Collaboratively planned application architecture with a team using React and Tailwind CSS for front-end development.
- Developed the Back-End using the Laravel framework.
- Handled database management.

SMKN 2 Banjarmasin

Nov 2021 – Dec 2021

Web Developer

- Contributed to infrastructure website (Pusat Pelayanan Lansia) development by planning application architecture with a team.
- Developed the website using Wordpress.
- Utilized Elementor for the front-end.
- Managed deployment and databases.

PT. Digiclass Indonesia International

Aug 2021 – Dec 2021

Digital Marketer & Intern

- Conducted in-depth keyword research and analyzed search trends utilizing Google Trends and Keyword Tool.io to optimize content and campaign strategies.
- Created, scheduled, and distributed engaging multimedia content (infographics, videos, images) across major platforms including Facebook, Instagram, LinkedIn, and YouTube.
- Monitored website performance and analyzed user behavior through Google Analytics to drive data-informed marketing decisions.
- Mentored and trained incoming interns on digital marketing fundamentals and practical campaign execution.

PDAM Bandarmasih

Jan 2021 – Mar 2021

Intern

- Assisted the Human Resources division with daily administrative operations, document management, and manual health & safety (K3LH) equipment audits.
- Developed a Web-Based First Aid Kit (P3K) Checking Information System to fulfill a vocational school final project requirement, inspired by the manual auditing process observed during the internship.
